# The product

## About Wazimap

Wazimap, from the Xhosa word *uwazi* for knowledge, is a joint project by [Media Monitoring Africa](#) and [OpenUp](#) that provides easy access to [South African census](#) and [elections](#) data.

Read more about [who we are and why we built Wazimap](#).

### Shoulders of Giants

Wazimap is based on the amazing [Census Reporter](#) and is completely open source. You can [build a Wazimap for your own country](#).

OpenUp

[wazimap.co.za](http://wazimap.co.za)

## Underlying technology

- Python Django
- PostgreSQL
- Tilelayer.js (map), charts.js (charts)

<https://github.com/AFRINIC-Labs/WIDER>

## Topics: you name it!

**Internet Access  
and usage**

**IPv6  
penetration**

**DNS data**

**Peering and  
interconnection**

**Internet  
freedom**

**Make it yours  
(?)**

## What next?

- Understand your interest
- Identify new and accurate data sources (WORLD)
- Integrate bespoke measurements datasets
- Build a “WIDER” community
- Make the project self-sustainable
