AFPIF 2022

CONCEPT OF THIS PRESENTATION

“We all need to laugh

once in a while...”

This presentation will be about the **everyday struggles, mistakes, misunderstandings** and just **“hit-your-head-on-the-desk”** moments.

This presentation includes industry relevant memes and some on-stage discussion on our experiences. I've planned the slides in such a way that they are applicable to my typical day as well. We will be touching on cybersecurity, network engineering, software development, etc.

There is not much more to elaborate on, but much to say about each slide! **Please join the session.**

What my parents see when I switch the HDMI 1 to HDMI 2...

How I feel when I have to scroll
down to the year I was born...

The most real 10-year challenge
I've seen...

2011

2021

Returns to work after 2 years of working from home

Co-workers: Is that fat guy new?

Me:

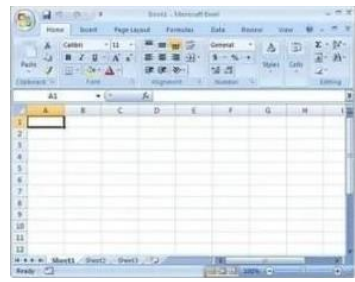

When your alarm goes off and you
lay in bed wondering
if you really need a job...

Computer science in movies

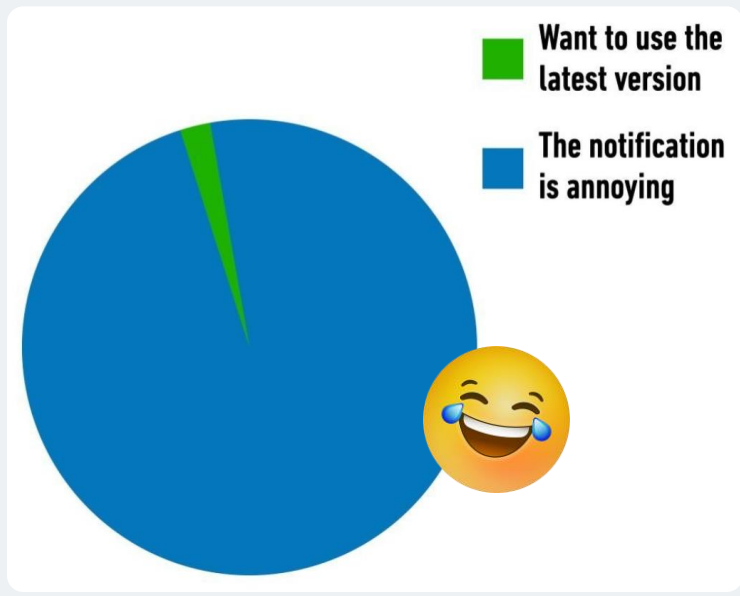

Computer science in my school

Why I update the software...

Me trying to click on
a link with bad WiFi

502 Bag Gateway

nginx/0.7.67

You want to know where I store
all my dad jokes?
...in a dad-a-base

How I look at Application People

When I prove it's NOT
the network

When a program starts responding
after you open task manager...

Fear will keep them in line.

WEB DEVELOPERS

“I hope this email finds you well”
How the email found me:

	<p>Type a simple command into the console</p> <hr/>
	<p>Press up key dozens of times until you find it.</p> <hr/>

THINGS SAID AND HEARD...

"I'm running out of light..."

"Our link is down, have you made any changes? On our side, we did not make any changes, we only swopped the router..."

"We can't use our own ASN because we only have a 1G port"

"I have swopped RX/TX on my RJ45..."
